

Faith formation is transformational when we understand that God wants to be a part of every aspect of our life, and that we are designed to grow within community.

Each piece/pillar overlays the whole circle reminding us that we can do nothing in isolation.

The 10 pillars fit nicely together forming a tight structure, providing stability and strength to life at any age and stage.

Write in each piece/pillar ways in which you can intentionally build into your life, you family, your faith community and for those in the world around you.
